Inhalation :  
S45-In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible).  
Remove the victim from the contamination immediately to fresh air.  
Inhale the gas that occurs from the molten polymer and transfer it in the place of fresh air right away in the case that the mood became bad and wait for recovery.  
In case that it does not recover we receive the diagnosis of the physician.

Skin contact :  
If a person touches the molten polymer, cool the affected part with fresh water.  
Do not try to remove the polymer by force and see a doctor if the person got burnt.

Eye contact :  
Gently rinse the affected eyes with clean water for at least 15 minutes. Arrange for transport to the nearest medical facility for examination and treatment by a physician as soon as possible.  
Have the victim remove contact lenses if he is wearing them and continue rinsing.  
Do not let the victim rub his eyes.
